SUBJECT : Possible Demarche to the USSR: Questions on the PL-05 ICBM
[redacted]

1. Attached is a set of questions on the PL-05 ICBM for use in any prospective US demarche to the Soviets. This list, which was requested by the PL-05 Working Group, has been coordinated by the Intelligence Community (IC).
[redacted]

2. The guidelines given to the IC for preparing this set of questions included that they be treaty related, i.e., not an intelligence gathering exercise, and designed to elicit quantitative responses. I believe that the attached meets those requirements. In addition I would note that these questions were designed so as not to leave any gaps or loopholes assuming the Soviets were to respond in a complete manner. I would caution, however, that picking and choosing amongst these questions could destroy the integrity of the entire package.
[redacted]

3. If I may be of any further assistance on this or other matters, please call. [redacted]
